

# **Vocabulary Lessons 9 & 10**

## **Review Task**

**Gifted English 9**

- With 10 of your words from lessons 9 & 10, you will compose sentences following the model from last week's *Discovering Voice* sample: "Kate could see her rummaging through the cabin, dumping drawers, and knocking things from the shelves of cabinets."
- In each sentence, you need to use *vivid word choice* and a *series of three elements* to describe an intense situation. For instance, you might use the word "wistful" in this way: "Already reading at a ninth-grade level, Sally was bored in class; therefore, she wistfully stared out of the window of her second-grade classroom, dreamily fantasized about beginning college at age ten, and arduously endeavored to ignore her philistine classmates."
