

# final week reflections

## 8. soundtrack of your life

Create a soundtrack for your life (or a specific part of your life), one that consists of a minimum of eight songs, which may be instrumental or vocal (or a combination). Make me a CD and/or print lyrics. For each song, identify the song title, performer, and composer. Write an explanation of what the song reveals about a pivotal moment in your life, making sure to include discussion of at least one literary concept per song (mood, figurative language, imagery, allusion, etc.).
